

WORK EXPERIENCE

Stride — Co-founder App Store Link	[Feb 2026 – Present]
Consumer fitness app iOS + WatchOS Gurugram	
- Co-founded and shipped a territory-based social running game to the App Store in under 5 months, taking the product from idea to launch on a ₹50K bootstrapped budget - Led product development using AI-native workflows, owning feature prioritization, user feedback loops, testing, and product iteration Ran 33 TestFlight builds with 50+ beta testers and 140 total users, resulting in 500+ km of tracked runs to refine onboarding, territory mechanics, and activity validation - Led early user acquisition and feedback efforts, validating product assumptions and shaping onboarding, engagement, and retention decisions	
Infoneo Technologies Pvt Ltd — Research Analyst	[Sep 2023 – Mar 2025]
Software, Web & App Development Company Noida	
- Defined and executed the content strategy and rollout plan to publish 60+ sector and state pages within a 60-day timeline, producing investor-facing research across 35+ sectors, 28 states, and 8 UTs for the Invest India platform - Served as the on-site point of contact at Invest India, aligning policy experts, sector teams, and developers to translate business requirements into structured, publish-ready content - Translated complex policy and sector analysis into concise, user-friendly web content and data summaries to improve platform usability for investors - Partnered with the Indian Institute of Banking & Finance (IIBF) to plan and develop financial-awareness content, supporting nationwide outreach and engagement objectives	
PlotX (now ‘Hunch’) — Research Analyst (Crypto and NFT)	[Jun 2022 – Feb 2023]
Web3 Prediction Markets Platform Okhla	
- Launched the NFT category end-to-end, authored feasibility (AIDA) report, owned launch strategy & creatives; achieved participation from 109+ countries with ~80% repeat participation - Designed and executed growth and UX strategy across NFT, Football, and Cricket categories, driving a 70% increase in daily participation by simplifying user flows (7 → 3 clicks) and reducing friction - Built and scaled community growth strategy across Discord (24k+), X (~15k), and Telegram (~9k), defining engagement playbooks, campaigns, AMAs, and event-led activation to improve adoption and retention - Partnered with Head of Strategy on market research, trend analysis, and product prioritization to inform roadmap decisions and category expansion - Supported hiring by interviewing 8+ candidates and defining role expectations; awarded with a Pre-Placement Offer for outstanding performance	

CAREER BREAK & INDEPENDENT PROJECTS

Career Break	[Mar 2025 – Dec 2025]
- Leveraged AI-assisted development tools (Claude Code, ChatGPT, and Codex) to prototype products and bring ideas to life independently, accelerating experimentation and execution - Created automated research systems using Zapier that collected and analyzed discussions from online communities on Reddit, generating structured insights for trend tracking and decision-making - Conducted independent customer and market research projects (CARS24 & Ditto Insurance), combining field visits, interviews, and competitive analysis to identify opportunities for improving user experience and retention	
CARS24: Field & Product Improvement Analysis Link	
- Conducted a competitive analysis of CARS24 vs Spinny, CarDekho, and OLX Autos in Delhi NCR, benchmarking customer journeys and service models - Led primary, on ground research across 7+ hubs/outlets (CARS24, Spinny, OLX Auto) testing cars to evaluate customer journeys and service quality Interviewed 5+ users and 10+ relationship managers to identify pain points, friction areas, and best practices in buyer/seller experience - Delivered a structured audit deck with insights on buyer/seller behavior, CX breakdowns, and actionable insights to improve retention & satisfaction	
Ditto Insurance: Customer Journey & Competitor Analysis Link	
- Conducted a comprehensive CX audit of Ditto by analyzing its offerings, mapping advisor interactions, and benchmarking against competitor Beshak.org through platform testing and advisor calls - Identified core CX gaps: limited advisor availability / fixed slots, information overload in first call, and under-leveraged social subscribers, and prioritized trust-building and relationship models as the top fixes - Delivered a founder-facing report + research dossier with actionable solutions: extended advisor hours (with right incentive structures), dedicated single-point advisors, quarterly after-sales check-ins, and targeted content repurposing for discovery and trust
